Authority for Limited or NonCompetitive Procurement

Competition can be limited under the following N.D.C.C. or N.D.A.C. provisions. Check the appropriate authority reference and provide factual material evidence in Section 16 to support the request.

The commodity or service is available from only one source. [N.D.C.C. 54-44.4-05 (2)(a)]

The commodity or service is available from another government entity's contract. [N.D.C.C. 54-44.4-05 (2)(b) and N.D.C.C. 54-44.4-05 (3)]. NOTE: The contract must be reviewed by OMB State Procurement Office.

The commodity or service is to be purchased for experimentation or trial. [N.D.C.C. 54-44.4-05 (2)(c)]

No acceptable bid or proposal was received pursuant to a competitive bidding or competitive proposal process. [N.D.C.C. 54-44.4-05 (2)(d)]

NOTE: If only one responsive bid or proposal was received in response to a solicitation, the procurement officer may make an award to the vendor upon determination that the specifications were not restrictive in accordance with N.D.A.C. Section 4-12-11-06-02. If only one responsive bid or proposal is received in response to a solicitation, and the price submitted is not fair and reasonable and there is not time for resolicitation, or it is unlikely that resolicitation will increase the number of bids or proposal, the procurement may be conducted as a limited competitive or noncompetitive purchase, as appropriate (N.D.A.C. 4-12-11-08)

Commodities are being purchased for over-the-counter resale. [N.D.C.C. 54-44.4-05 (2)(e)]

A used commodity is advantageous to the state and the commodity is available on short notice. [N.D.C.C. 54-44.4-05 (2)(h)]

The commodity is a component or replacement part for which there is not commercially available substitute and which can be obtained only from the manufacturer. [N.D.C.C. 54-44.4-05 (2)(i)]

Compatibility with equipment currently owned by the state is essential to the proper functioning of that equipment. [N.D.C.C. 54-44.4-05 (2)(j)]

Products or services exclusive to particular individuals or business entities are required, but competition for that proprietary product or service exists. [N.D.A.C. 4-12-09-02 (1)(a)]

Circumstances require that commodities or services be provided by vendors within a specific geographic area, such as equipment requiring local service, on-site service within a specific time, or delivery of perishables. [N.D.A.C. 4-12-09-02 (1)(b)]

It is determined that a competitive sealed bid or competitive sealed process is impracticable or not in the best interest of the state. [N.D.A.C. 4-12-09-02 (1)(c)]

The services or the circumstances are of such a nature that deviation from the procurement process is appropriate. [N.D.C.C. 54-44.4-05 (2)(k)]

NOTE: The agency must provide substantiating documentation.

Justification of Limited Competitive/NonCompetitive Purchase and Supporting Documentation

Explain why a fully competitive procurement method is impracticable or not in the best interest of the state. Why is the commodity or service available from limited sources or one source? Provide factual material evidence, such as written documents, records, supporting data, affidavits, or other information (e.g. describe research conducted, obtain and attach a letter from the manufacturer, etc.).

Disapproval Consequences

What are the consequences, including a dollar estimate of the financial impact, if this request for limited competitive or noncompetitive purchase is not approved?

Agency Approval (Up to \$25,000)

Instructions for Agency Head or Designee: The procurement officer must cite the authority for the limited competitive or noncompetitive purchase and provide evidence necessary for an independent examination and determination of the material facts of the procurement (N.D.A.C. 4-12-09-02).

ALTERNATE PROCUREMENT REQUEST

Occasionally, circumstances arise under which a fully competitive procurement process maybe difficult or impossible. Procurement is noncompetitive when there is no bidding process. Limited competition procurements occur when competition is possible, but the requirements of the bid restrict competition to particular suppliers or products. These types of procurement are exceptions to the state policy that purchases be completed through full competition with fair and equal opportunity to all qualified vendors. Therefore, limited and noncompetitive procurements should only be used when truly necessary and authorized by state law or rule. When a limited competitive or noncompetitive procurement is contemplated, the purchasing agency must make a determination (ref. N.D.C.C. 54-44.4-05, N.D.A.C. 4-12-09). Contact the OMB State Procurement Office at 701-328-2683 for assistance.

APPROVAL AUTHORITY

The agency head or designee has authority to approve determinations up to \$25,000. The OMB State Procurement Office must approve all determinations over \$25,000. Any requests to purchase from a GSA contract or another government entity's contract must be reviewed by the OMB State Procurement Office. If the procurement officer has not provided sufficient evidence to make an independent examination and determination of the material facts of the procurement, as required in N.D.A.C. 4-12-09-02 the approving official my return the request form for additional justification or require the procurement officer to issue a notice of intent to make a noncompetitive purchase.

NOTICE OF INTENT TO MAKE A NONCOMPETITIVE PURCHASE

Notice of Intent to Make a Noncompetitive Purchase may be issued to attempt to identify alternate sources for the needed commodity or service. A notice template is available on the OMB State Procurement Office website. The notice describes the required commodity or service thought to be available only from limited sources or one source, and it invites vendors to contact the procurement officer to propose an alternate source. Issue the notice to vendors on the state bidders list and any other known potential bidders. Allow at least a two-week response time. If vendors respond, determine whether the proposed alternate source is a viable option. If no alternate sources are identified, the limited competitive or noncompetitive determination is valid.

DETERMINATION NOT REQUIRED
